REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The total combination of Claim 1 is not taught and/or rendered obvious by the prior art of record when considering the motion of the printhead. The closest prior art references are Fisher (5,051,761) and Jackson (6,172,691). Neither Fisher nor Jackson teach and/or render obvious the vertical motion of the printhead. Further, Jackson does not teach the cleaning of the printhead over the production path, but rather in a non- production location (see figure 1). The total combination of Claim 3 is not taught or rendered obvious by the prior art of record when considering the service station assembly. The total combination of Claim 4 is not taught and/or rendered obvious by the prior art of record when considering the gear assembly. The total combination of Claim 14 is not taught and/or rendered obvious by the prior art of record when considering the ink receptacle assembly. The total combination of Claim 15 is not taught and/or rendered obvious by the prior art of record when considering the ink receptacle assembly. The total combination of Claim 16 is not taught and/or rendered obvious by the prior art of record when considering the cleaning station control circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
